Dear Parent/Carer,

RE: KS3 Science Club

We are pleased to inform you that the **Science Club** for year 7-9 students will be commencing on **Monday 03 March**.

Science Club is designed to give students the opportunity to explore science beyond the classroom in a fun, practical, and engaging way. During the club, students will take part in hands-on experiments, problem-solving activities, and scientific investigations that help develop curiosity, creativity, and critical thinking skills.

Participation in Science Club will support students by:

- Deepening their understanding of scientific concepts through practical application
- Developing teamwork, communication, and independent thinking skills
- Building confidence and enthusiasm for science
- Encouraging curiosity and a love of learning beyond the curriculum

The club is open to students who have an interest in science and would benefit from extending their learning in an informal and enjoyable environment.

If you are happy for your child to attend Science Club, please complete the consent section below and return it to **Miss Laffan by Friday 13 February**.

If you have any questions, please do not hesitate to contact us.

Yours faithfully,

Miss Asare

Head of Science

Science Club – Parental Consent – Please return to Ms Laffan

I give permission for my child to attend **Science Club**, commencing on **3rd March**.
